BOARD OF CERTIFICATION EXAM PASS RATE (calculated by student cohort, not by exam year)

This data is received from the BOC once a BOC ID is matched to each student in a cohort, and the student has taken the BOC exam. The aggregate pass rate is calculated by the number of graduates taking the exam divided by the number of graduates who pass the exam. Important note: The first-time pass rate and total pass rate may be different from what was previously received by programs from the BOC in the Institution Pass Report. The pass rate on previous reports from the BOC was calculated without regard to student cohort and was based on the BOC exam year (April-February of each year). BOC pass rate data is updated after each BOC testing cycle closes.
